

SUBJECT: Engine Fire Extinguisher Canister Component Limitation EASA Approval
Aircraft Type: Eclipse 500 and 550
Effectivity: All Aircraft
Applicability: All Aircraft

1. SUMMARY

The Engine Fire Extinguisher Canister Temporary Revisions to the Eclipse 500 and 550 Aircraft Maintenance Manuals (AMM) have been approved by EASA .

2. BACKGROUND

The Engine Fire Extinguisher Canister Temporary Revisions (TR) to the Eclipse 500 (TR No. 04-5, 06-117751) and Eclipse 550 (TR No. 04-5, 06-123838) AMMs have been approved by EASA. The TRs changed the life limit language for the part number 26-123127-() engine fire extinguisher canister.

3. SUGGESTED OPERATOR ACTION

Operators of aircraft registered in EASA member countries should review the appropriate AMM TR 04-5 for their model and incorporate the change in their aircraft's maintenance schedule.

Operators of aircraft registered in EASA member countries must compile their AMM using three documents. They are the main AMM, AMM TR 04-5 (and any superseding AMM TRs that may be released), and the EASA AMM Supplement.

4. EXPORT CONTROL

These commodities, technology or software, were exported from the United States in accordance with the Export Administration Regulations. These commodities, technology or software are intended for use only in the End User's country. An export license from the U.S. Department of Commerce may be required before these products can be re-exported, transferred, transshipped on a non-continuous voyage, or otherwise disposed of in any other country, either in their original form or after being incorporated into an end item. Diversion of this end-item or its use contrary to any applicable U.S. government license or to U.S. law is prohibited.
