

SUBJECT: Navigation Database Issues
Aircraft: Eclipse 500 and Eclipse 550
Effectivity: Aircraft with IFMS EFIS
Applicability: Aircraft using Jeppesen Navigation Database Services

1. SUMMARY

This SIL introduces resources to identify and report issues with the Jeppesen navigation database used on IFMS equipped Eclipse 500 and 550 aircraft.

2. BACKGROUND

EAI has received inquiries regarding the appropriate method for identifying and reporting navigational database concerns.

3. ECLIPSE ACTION

EAI has issued this SIL to notify subscribers to the Jeppesen navigation database for IFMS equipped aircraft of the resources available to identify and report any database concerns.

4. SUGGESTED OPERATOR ACTION

Owner/operators and pilots with concerns about navigational databases should first review the information available at the IS&S website. This website provides valuable information on any known issues, future database releases, contacts for reporting concerns, and alternate flight planning procedures to mitigate the impact of any database issues.
